Prime's Handy Hint

Continued education is always good no matter how great you think we are why not check out Bureau of Standards library. Its free and they now have the new building for Jamaica as well as other standards and reference books check it out. They are located at 6 Winchester Road, Kingston 10

JOKE OF THE QUARTER

The Guillotine

A priest , a lawyer and a construction engineer are about to be guillotined. The priest puts his head on the block, they pull the rope and nothing happens— he declares that he's been saved by divine intervention— so he's let go. The lawyer is put on the block and again the rope doesn't release the blade, he claims he can't be executed of the same crime twice and he is set free too. They grab the construction engineer and shove his head into the guillotine, he looks up at the release mechanism and says, "wait a minute!! I see your problem....."

“IN PERSPECTIVE”

In the last issue “Ready Set Go” we highlighted the effects of the global economic downturn on our company.

We are pleased to say that we have put things “In Perspective.” The challenges we face in our day to day activities in moving ahead are ones that we embrace. In fact our present motivation are two renovation projects both in Kingston.

The first is neatly tucked away in the lush environs of the upscale residential neighborhood of Beverly Hills , with a breathtaking view of the city . This renovation is being designed by Marvin Goodman & Associates'. The end result will reflect the clients' sophisticated style, who anxiously await the completion of their home.

The other renovation being undertaken is situated in the quiet city neighborhood of Trafalgar Park, in The Prestigious Golden Triangle.

The architectural services of Stiebel & Company has been retained to envision the elegant taste of the client. We have no doubt that this pairing will produce an exquisite result!

In retrospect Stiebel & Company's “Chillin’ at Old Forte Bay is most definitely one to brag about with its design and the development adds flair and flavor to the resort town of Mammee Bay in St. Ann. Prime Development Limited was the contractor for this Award Winning Design.

Prime Development has worked on several projects with both Architectural firms and the end result has been and always will be “FIRST CLASS”.

As we embark on our future projects we are confident that the reputation of prime development will be maintained to its highest standard.

As we embark on our future projects we are confident that the ballooning of works will be coupled by our high standards..

Residential Renovation Beverly Hills

Residential Renovation Trafalgar Park

INTRODUCING...
PRIME SOLUTIONS LIMITED
Natural Energy

Prime Solutions is well under way in testing several natural energy products: Solar Water Heaters (SWH), wind turbines and PV Solar Panels.

Our SWH have surpassed our expectations and our first unit has been installed. We expect to be in full operation by September 2009
